

Poster Presentations & Live Demos in HUMAN-COMPUTER INTERACTION

Dec 10, 2014

3:25 - 4:40 PM

Rettner Hall

See how students in the HCI course use human-computer interaction to:

- Give real-time feedback on public speaking
- Improve presentation of public speaking feedback
- Provide alternative food delivery from restaurants
- Turn emotions into colors
- Hit the right pitch with a vocal coach
- Control light colors with body movement
- Improve speech delivery with Google Glass
- Get coding help quickly
- Create a new style of tutorial interaction

There will be FREE FOOD.
