2		<b>Login</b>			
3		As a user, I want to log in to the system, so I can post requests and offers	The page has a textbox into which the user can type their user name and a password box into which they can type their password, but it is not displayed.	Type in a registered username and password and the system opens up. Type in a username that is not in the system and the home page does not show. Type in a user name that is in the system, but an incorrect password and the home page does not show.	Requires sign in screen to test.
4		As a user, I want to know what the system does before I sign up to use it, so I know that I am in the right place.	There is text on the page that says what the site is and what it does. The text is short and clear.	Test text on the user page with users to see if they understand it quickly.	
5		As a user, I want to know that the other users of the system are who they say they are, so I can avoid scams	Passwords require at least eight characters, a number, a special character and a digit.		Enforced by the sign up system.
6		As a user, I want to keep others from pretending to be me so I do not get a bad reputation.	Passwords require at least eight characters, a number, a special character and a digit.		Enforced by the sign up system.
7		As a user, I want the system to remember all of my user details, so I do not have to enter them again.		Add information, check to see that it is in the database.	Requires database.
8		<b>Sign-up</b>			
9		As a user, I want to be able to create an account for myself, so I can use the system.	System requests first name, last name, address, phone number, user name and password	Click on sign up. Enter required data. Home screen appears. Log out and log in with new user name and password. Home screen appears.	
10		As a user, I want the system to keep my personal information private, so I do not get harrassed.	System requires a password requiring at least eight characters, an upper case letter, a lower case letter, a number and a special character.	Enter a password with less than eight character. One with more than eight characters but without an upper case letter, another without a number, and third without a special character.	
11		As a user, I want help filling out the sign up form.	The sign up form notified the user that they have made a mistake whenever possible. For example, if the user types in an invalid zip code, the system notifies the user.	TBD	
12		As a user, I want to know that the system has verified that others on the system are who they say they are.			
13		As a user, I want to be able to authenticate myself using Facebook, so it will be easy to do.
